EQUINIX AMSTERDAM DATA CENTERS

Equinix helps companies accelerate business performance by connecting them to their customers and partners inside the world's most networked data centers. Equinix Amsterdam is the gateway to Europe and a business hub for 700+ companies. Amsterdam customers can choose from a broad range of services from 150+ network service providers and they can also interconnect directly to customers and partners in their digital supply chain. The Equinix Amsterdam metro International Business Exchange™ (IBX®) data centers consist of seven buildings with approximately 360,000 square feet (33,000+ square meters) of colocation space.

Our Amsterdam data centers enable customers to be part of a rich industry ecosystem. This allows clients to directly connect to more than 250 international networks, making our Amsterdam colocation facilities some of the most network-dense locations worldwide. It is also an excellent geographic region to reach central and eastern Europe and connect to many US and European businesses served by our data centers. We also host ecosystems for Content Digital Networks (CDNs), e-commerce, broadcasting, advertising and gaming companies. In addition to low latency to 80% of Europe, we provide connection to AMS-IX, NL-ix and GRX and access to mobile service providers' core nodes.

AMSTERDAM IBX® BENEFITS

- Ability to reach 80% of Europe within 50 milliseconds makes location ideal for enterprises with multiple European offices
- Ideal entry point for cloud providers looking to establish presence in Europe with direct access to hundreds of carriers
- Peering with the GRX Peering Exchange for mobile network operators
- Direct access to multiple mobile service provider core nodes including Syniverse, RIM and Opera Interconnection to hundreds of carriers

IBX TECHNICAL SPECIFICATIONS

Building

Space

Colocation Space	64,583 ft ² (6,000 m ²)
Building Type	2 floors, steel frame with in situ concrete slabs
Parking	Adjacent to building (no charge)

Floor

Floor Type	Raised
Floor Load Capacity	2,000 kg/m ² (409 psf)

Seismic Design Category	Low
--------------------------------	-----

Fire Suppression	VESDA, HI-FOG, water mist fire suppression, Double knock fire activation
-------------------------	--

Facilities

Power and Cooling

Power and Cooling Density	3.0 - 22.0 kVA per Cabinet
Utility Feeders	2 x 15 MVA
UPS Redundancy	2 x (N+1)
Standby Power Configuration	2 x 2,452 kVA Generators
Standby Power Redundancy	N+1
Cooling Configuration	Chilled water + ATEs
Cooling Redundancy	N+2

Security

Physical	Man trap entry, single entry point, CCTV surveillance, proximity access card, BMS perimeter intruder alarm, perimeter fence
Human	24x7 security officers
Electronic	Card Readers, Biometric Readers, CCTV and Recorders, Motion Detection

Products and Services

Colocation

- Private Cage
- Secure Cabinet
- AC Power Circuits
- IBXflex Office and Storage
- Antenna
- EU Business Suites

Interconnection

- Equinix Connect
- Cross Connects

Services

- Smart Hands™
- Migration Planning
- Equipment Sourcing
- Installation

Reliability

Our IBX data centers boast an industry-leading, high average uptime track record of >99.9999% globally.

Certification and Sustainability

Certifications

- ISO 27001
- PCI-DSS
- OHSAS 18001
- ISO 9001
- ISO 50001
- ISO 14001
- SSAE 16/ISAE 3402 SOC-1 Type II

Green By Design

- ISO 14001, ISO 50001
- Renewable energy - 100% bundled GoOs from a mix of biomass and hydro
- Aquifer Thermal Energy Storage (ATES)

ABOUT EQUINIX

Equinix, Inc. (Nasdaq: EQIX) connects the world's leading businesses to their customers, employees and partners inside the most interconnected data centers. In 44 markets across five continents, Equinix is where companies come together to realize new opportunities and accelerate their business, IT and cloud strategies.
